

HELPING BUILD CANADA

TradesCan is a construction immigration program established in partnership with the **Construction Association of PEI**. TradesCan provides free immigrant worker recruitment services to any company that is a member of the Association.

Our program is supported by dedicated offices and agents located throughout Asia that can find immigrants with construction training and experience interested in re-locating to Canada.

WHY IMMIGRATION?

Facing strong demand and an aging workforce, companies in PEI's construction sector are increasingly challenged to secure skilled employees.

With one in four construction workers expected to retire before 2030, now more than ever construction employers need to look at immigration as a source of skilled labour to address growing labour shortages.

TradesCan can help.

OUR SERVICES

- ✓ **Recruitment** of immigrants with construction experience/training to come to Canada.
- ✓ **Completion** of immigration application processes to support both immigrant workers and Canadian construction employers.
- ✓ **Placement** of immigrant construction workers with Canadian construction companies looking for workers to address labour shortages.
- ✓ **Integration** of immigrant construction workers into the workforce with language and cultural support services.
